

EXPERIMENT 4

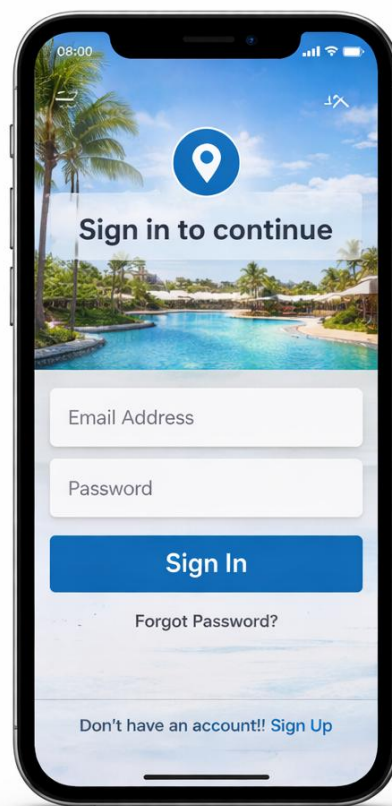

ROLL NO: 240701520

NAME: Soameshwaran D

Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups using proto.io

Screen 1 – Sign In Page

The first screen is the Sign In page of the hotel booking application. It allows users to securely log into their account using email and password. This screen is important for authentication before accessing booking services.

Familiar Elements

- Email & Password fields
- “Sign In” button
- “Forgot Password” link

Purpose

To provide secure user authentication before accessing hotel booking features.

Screen 2 – Home Page

The home page displays trending hotels and resorts with easy navigation options. Users can search hotels, explore popular destinations, and view recommended stays.

Familiar Icons

- Hamburger Menu (☰) – Opens navigation menu
- Search Icon (🔍) – Search hotels/resorts
- Three-Dot Menu (⋮) – More options

Possibly Unfamiliar Element

- Explore Button – Takes users to hotel details

Purpose

To help users browse hotels and quickly find booking options.

Screen 3 – Resort 1 Details Page

This screen shows details of the first resort including images, rating, location, description, and booking option.

Familiar Elements

- Back Arrow (←) – Returns to home page
- Book Now Button – Starts booking process

Purpose

To provide detailed information about a selected hotel before booking.

Screen 7 – Booking Page

This screen allows users to select check-in and check-out dates using calendar view and confirm reservation.

Familiar Icons

- Back Arrow (←) – Return
- Left & Right Arrows – Change month
- Calendar – Select dates
- Reserve Button – Confirm booking

Purpose

To finalize hotel booking details.

Screen 6 – Profile Page

The profile page contains user account information and options like transaction history, favourite hotels, coupons, and logout.

Familiar Icons

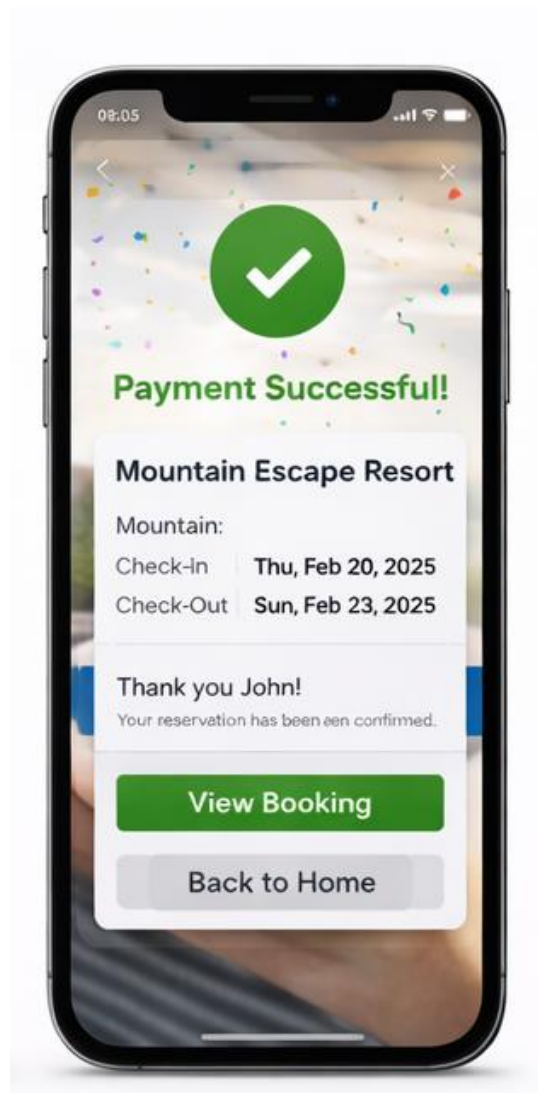

- Profile Icon – User account
- Transaction Icon – Payment history
- Coupons Icon – Offers and discounts
- Heart Icon – Favourite hotels
- Logout Icon – Exit account

Purpose

To manage user account settings and booking history.

Screen 9 – Payment Confirmation Page

This screen shows successful payment message and reservation confirmation.

Familiar Elements

- Confirmation Message
- Booking Details
- Back to Home Button

Purpose

To inform the user that booking is completed successfully.
